Palloys

SINCE 1951

Palloys is the Casting & Custom Design Manufacturing Division of Pallion, the largest precious metal services group in Australasia.

Palloys was formed in 1951 by Felix Parry, a decorated war hero who pioneered jewellery casting in Australia. Palloys commenced business in the basement of a building in Erksine Street, Sydney, before moving to a facility in Woollahra, Sydney. The current facility in Marrickville is the most technologically advanced casting facility in Australasia.

As Australia's premier precious metal service provider, Palloys has been a trusted source to the Australian jewellery and antiques industry for over 60 years; pioneering in casting, refining, electroplating, mouldmaking, antique reproduction and custom design manufacturing services.

PALLION®

PALLION is Australia's premier precious metals service group.

We employ Australia's most experienced team of metallurgists, chemists, designers and fabricators to ensure that all PALLION products are of the finest quality. Our scale means that we are able to deliver superior value. With distribution offices in Sydney, Melbourne, Brisbane and Perth, coupled with volume manufacturing capability in Hong Kong and mainland China through our subsidiary Goldenage International. PALLION offers its client's unmatched geographical reach and customer service.

PALLION offers a full service solution for precious metal including:

- **Bullion -** Pallion is the exclusive distributor of one of the cornerstones of the Australian gold trading system - ABC Bullion, the Australian Bullion Company.
- **Refining & Minting -** Pallion operates Australasia's largest and most technologically advanced independent precious metal refining and minting facility – ABC Refinery.
- **Casting & Custom Jewellery -** Pallion operates Australia's premier jewellery casting and custom jewellery production service at Palloys and Goldenage International.
- **Fabricated Products -** Pallion manufactures and supplies the AGS|PJW range of superior fabricated metal products in the full spectrum of standard and custom sizes and forms including sheet, wire, chenier and solder. Pallion is the exclusive Australian distributor of Wieland Eletroplating Products, widely acknowledged as the leading global brand of plating products in the precious metal industry.
- **Findings -** Pallion is the exclusive Australian distributor of the Regentco brand of jewellery findings. With a comprehensive range of findings in carat gold and sterling silver, Regentco findings can be supplied incorporating client logos.
- **Vaulting -** Pallion provides secure vaulting services at Custodian Vaults, Australia's premier secure storage facility.

MAKING YOUR OWN MASTER MOULDS

Palloys offers Australia's premier Rubber Mould making service. Our skilled Rubber Mould Cutters have been trained to cut moulds to minimise Wax Model distortion and divide lines. A key differentiation of Palloys pumped Wax Models is that they are eye checked after pumping and cleaned to remove any surface blemish or divide line, thereby reducing workshop cleanup time after casting occurs.

Palloys offers 2 Rubber Mould types

Standard Vulcanised Rubber Mould: Unless otherwise requested, this is the standard Rubber Mould type offered at Palloys, whereby the Master Pattern is encased in a Rubber Mould sandwich using pressure and temperature. Shrinkage of between 2% to 4% compared to the Master Pattern can be expected using this method. These moulds offer good durability and flexibility. Liquid Moulding Rubber: Cold pour moulds are produced from Silicone polymers and are generally two part (ie, polymer and catalyst). They cure at room temperature and evidence a lower shrinkage factor of approximately 1%. They are recommended where the Master Pattern is extremely delicate, suit 2D designs or prone to oxidisation.

Sizes

Palloys offers a range of Rubber Mould sizes. Palloys also has a large range of non standard frames for special pieces – just contact our team to discuss your requirements. The standard size of Palloys moulds are 47.6 x 73 x 15.9mm. As a general rule, a minimum of 10-12 mm should be allowed for space around the Master Pattern for each relevant Rubber Mould size.

Timing and Cost

Generally, Rubber Moulds will be cut within 2 to 3 days of order. Vulcanised Rubber Standard moulds are $35 to produce. Cold Pour Silicon Standard Sized Moulds are $45 to produce.
An express Rubber Mould cutting service is available for an additional fee – just specify at the time of order.

Property & Storage

Rubber Moulds are stored at Palloys in the Palloys Mould library. No storage fee is charged by Palloys for this service. Intellectual property in the design included in the Rubber Mould rests with the relevant client. Accordingly, Palloys guarantees that Rubber Moulds made by Palloys from Master Patterns supplied by clients will be held by them for their exclusive use. Unless instructed otherwise, Master Patterns will be returned to clients after a Rubber Mould has been produced.

Accessing Your Moulds

Palloys makes it easy to keep a track of all of your Rubber Mould designs. For ease of reference by each client, each Rubber Mould stored at Palloys is allocated a unique Palloys identifying number and the Master Pattern shape photographed for access by a relevant client under password protection. Please sign up at www.palloys.com.au for an account and a customer service rep will contact you shortly for moulds access.

NOTE: Weight in grams (g) for Sterling Silver. Please see Specific Gravities Table on back page.

HOW TO ORDER?

The Palloys library houses over 75 thousand moulds that span over 60 years of design. We have selected some of our more popular designs/styles in this catalogue. These moulds can either be purchased in wax or cast in your selected choice of alloy.

Simply call, email, fax or log in online to place an order. We require your alloy or wax choice, quantity and product code of which mould you would like to produce.
